

Xpressive

Colour becomes fluid, involves the surfaces with its expressive charge, creating an unique material able to move and surprise.

Bright colours, nearly fluorescent, soft shades and basic white/black contrast are the starting point of **Xpressive**. This new collection, designed by **Silvia Stanzani**, recovers the colour's power of ceramic glazes and combines it with porcelain's strength, in order to create a technical surface designed for residential, public and wide-open spaces.

Il colore diventa fluido, investe con la sua carica espressiva le superfici e genera una materia inedita che emoziona e sorprende.

Colori accesi, quasi fluorescenti, morbide nuances ed i contrasti base del bianco e nero, sono il punto di partenza di **Xpressive**, la nuova collezione ideata da **Silvia Stanzani** che recupera la potenza cromatica degli smalti ceramici unendola alla forza e alla resistenza del porcellanato per creare una superficie tecnica destinata al residenziale, agli spazi pubblici ed alla decorazione esterna degli spazi urbani.

The logo for the Xpressive collection, featuring a large, stylized green 'X' with a blue rectangular background behind the word 'pressive' in yellow lowercase letters.
